NEWSLETTER

NEWSLETTER NO.61 NOVEMBER 1995.

EDITORIAL.

Well folks, this is possibly the last newsletter that you will receive before the Christmas/New Year period, and may I take this opportunity to wish you all a very Happy Christmas and a very good New Year. This past month has been rather hectic, with a radio interview, interviews by college students doing course work on UFOs ! and UFO sighting reports. Also, this month has been rather busy keeping track with press articles, television programs and the radio. This months newsletter sees a transcript of the Ray Santilli interview on Good Morning with Ann and Nick on the 2.11.95 (Let me know what you think about it.. ED).

This month appears to be very quiet with regards to the Santilli footage with most magazines having a go at it and with a new photograph of yet another dead alien turning up in Japan. Alien bodies are turning up here there and everywhere at present, and I just wonder where the next one will appear ?. There have been no major events as such (See The Daily Star 11.11.95), but I have heard of a Triangle-type craft being spotted over Portsmouth and mystery lights over Southampton. In November, I will be attending a conference in Bournemouth, and I will let you know about it in the December edition of the newsletter. Lets hope 1996 turns out to be somewhat more of a better year for Ufology and that certain recent events are put to rest once and for all.

WHAT THE MEDIA HAD TO SAY IN SEPTEMBER 1994.

REGIONAL ARTICLES :

- 9.94 : The Scotsman : Close encounter on the A70.
- 1.9.94 : Wharfedale & Airedale Observer : Moor's aliens come under TV spotlight.
- 1.9.94 : Bournemouth Echo : Two Alien Visitors from outer space 'lost' in library.
- 1.9.94 : Harlow and Epping Herald : UFO sighting sparks boy's along search.
- 1.9.94 : Newcastle Journal : Mystery object seen in night sky.
- 1.9.94 : Northants Evening Telegraph : Invitation on UFO studies.
- 2.9.94 : Essex County Standard : Did you see this Boxted UFO ?
- 2.9.94 : The Newark Advertiser : Something fishy in the night sky.
- 6.9.94 : Salisbury Times : Beam Me Up.
- 7.9.94 : Hereford Journal : Seen anything strange in the sky recently ?
- 7.9.94 : Dales Trader : Top spot for alien visitors !
- 8.9.94 : Christchurch Advertiser : Riddle of UFO that tracked a family.
- 9.9.94 : Essex County Standard : Callers report seeing UFO.
- 13.9.94 : Colchester Evening Gazette : We saw UFO say couple.
- 14.9.94 : Colchester Evening Gazette : Readers tell of own UFO tales.
- 15.9.94 : Ilkley Gazette : Video of UFO to go public.
- 15.9.94 : Wanstead & Woodford Guardian : 'I was abducted by aliens' says woman.
- 16.9.94 : Stoke on Trent Evening Sentinel : Close encounters of the worst kind.
- 17.9.94 : Lancashire Evening Telegraph : Aliens grabbed me.

20.9.94 : Aberdeen Press and Journal : Is there anyone out there ?
22.9.94 : Chelmsford Weekly News : More reports of UFO sighting.
27.9.94 : Yorkshire Evening Press : Plea for truth on UFOs.
28.9.94 : The Scotsman : UFO Sightings.

CROP CIRCLE ARTICLES :

3.9.94 : Lochaber News : Crop circle mystery.

PAPER UNKNOWN :

5.9.94 : Are we alone ?
18.9.94 : Man sees alien land on the South Downs.

NATIONAL ARTICLES :

10.9.94 : Daily Mail : UFO legend that won't fly away.
12.9.94 : Daily Star : Loaf encounter.
16.9.94 : Daily Star : Sex was out of this world.
16.9.94 : Daily Telegraph : 'UFO' was spy rocket debris.
16.9.94 : Times Literary Supplement : Not quite of this world.
17.9.94 : The Guardian : Space invaders.

PRESS/TV/RADIO MATTERS OVER THE PAST MONTH 15.10.95 - 15.11.95.

PRESS :

15.10.95 : Sunday People : Secrets of the UFOs Revealed :

Secret files on UFO incidents, kept for years in Ministry of Defence files, show that the Government tried to keep the lid on mystery alien visits.

One file, revealed last night, confirms that jets were scrambled to intercept a UFO over Dover in 1957. Although two mystery objects were spotted, RAF planes couldn't track them on radar.

A year earlier, two planes made fleeting contact with a 'very high-speed UFO'.

Another file reveals that two pilots saw flying saucer hovering near RAF Cosford, near Wolverhampton, in 1963.

The MoD records say the men ' saw a trapdoor in the upper part slowly open '.

Sex Out of This World !

RANDY aliens are increasingly abducting beautiful young wives for close encounters of the dirty kind says a sensational new book, *Taken*, by top American UFO researcher Karla Taylor.

20.10.95 : The Independent : Make Friends with an Alien :

Whatever you may have heard, space is not the final frontier. Stanton T. Friedman, the American UFO researcher, for example, prefers cosier concepts. 'I try to get people to think of a local galactic neighbourhood,' says Friedman from his home in Canada. 'The evidence is overwhelming that Earth is being visited by intelligently-controlled extra-terrestrial spacecraft. There are 46 stars similar to our sun within 54 light years of earth. That isn't too far for aliens to travel'.

Friedman, who gives a series of lectures in Britain starting tomorrow, believes he will convince the most dogmatic sceptic of the existence of flying saucers. Other scientists, he says (he himself has a nuclear physics degree) refuse to take UFO research seriously, not only because they are ignorant of the data, but because they are frightened of being laughed at - something he calls the 'laughter curtain'.

Recently, interest in Friedman's work has been revived by the infamous Roswell Incident film, which surfaced early this year, purportedly showing an autopsy of aliens recovered from a flying saucer which crashed in New Mexico in 1947. Friedman, however, one of the first researchers to look at the case in detail, is sceptical : 'I've watched the film over and over again. I can't prove that it's a hoax but I couldn't find anything that led me to believe it had anything to do with Roswell'.

Ultimately, though, whether or not you're prepared to be convinced, Friedman promises an entertaining experience ; 'I know what I'm talking about, I've done 37 years of study. I've been out there and I've heard all the questions'. Britain, Earth, next week : all non-human life will be there.

24.10.95 : Southampton Echo : Please Tell me we didn't see a UFO :

Well, did anyone else see the spinning, dancing, wheel of white light darting around in the clouds above Pitt and Hursley on the A3090 that my daughter and I witnessed while driving along at about 2135 on the night of Wednesday October 18 ?

The driver in front of us obviously did, judging by his erratic progress along the road !.

If anyone has a logical explanation, I would like to know it, if only to satisfy my other daughter, who despite being a devotee of the X Files, nearly fell off the sofa laughing when told of our experience.

Somebody please tell me it was just a helicopter or an outdoor disco or something.

Otherwise it means that we saw an unidentified flying object - and I can't believe I just said that !

5.11.95 : The People : Giant UFO Sent My Whole Life Into Orbit !

Britain's top UFO investigator has revealed how an amazing experience with a giant spaceship changed his life forever.

Tony Dodd's close encounter of the weird kind came as he answered a routine call over a disturbance in a North Yorkshire village.

'We drove round a bend and suddenly there was a massive spaceship hovering above the road', said the 60-year-old ex-police sergeant. 'It was spectacular. Our mouths just dropped open in amazement. I hit the brakes and skidded to a halt.

The craft was about 100 feet off the ground, very bright with flashing lights rotating around what looked like portholes.

'It was glowing white hot but it was completely silent. It passed overhead and moved off. We were mesmerised.'

Now Tom (Paper got this bit wrong !!! It should be Tony... Ed) is a world expert on UFOs, ET's and alien abductions and has dedicated his life to proving there IS life in outer space.

he claims to have seen dozens of flying saucers and tracked down scores of Britons who have been abducted by their occupants since that first sighting at Cononley, near Skipton, in 1978.

As director of investigations for the UFO agency Quest International he has lobbied governments all over the world.

Tony, who lives in the village of Grassington in the Yorkshire Dales, now wants the British Government to admit that life in space exists.

'They know what's going on. It's immoral that the Government and military are keeping everything secret'.

And Tony, whose quest so far has cost him £30,000, adds : 'People can think what they like. Many will think I've completely lost my mind - but aliens do exist!'

If you have had a close encounter with a UFO, contact Tony on 01756 752216.

11.11.95 : Daily Star : UFO've Been Framed - Glenn Films Huge 'Spaceship'...

Gobsmacked Glenn Webster made a real-life X-Files film ... by catching a UFO on video.

The fast moving 'axe-head' shape was seen by scores of people - but only Glenn managed to snap it.

It moved swiftly from side to side before changing into a spinning top shape and zooming off. Police received several reports of the UFO and one man claimed a bright light followed his car.

Camcorder enthusiast Glenn, 32, a painter and decorator from Norwich, was so stunned he tripped and fell over while filming from his bedroom window.

But his video - just like something from the X-Files TV show - clearly shows the shape zigzagging before flying off in the direction of Great Yarmouth.

Moved.

Glenn said : 'I was stunned when I saw it and reached for my camcorder. When I zoomed in I could not believe it. I moved forward and tripped over my hi-fi. I've always been a bit sceptical about these things, but this was amazing.' Glenn's filming on November 3 coincided with numerous UFO reports over Norfolk.

Computer engineer Nick Coleman said : 'I was driving when a bright light appeared in my rear-view mirror. It moved around the car before shooting up into the sky'.

UFO expert Ian Simmons (Who !... Ed), 35, has watched the video and ruled out all the normal explanations. He said: 'It could well be extra-terrestrial'.

Other articles that appeared in the last month :

15.10.95 : Sunday Times MoD Files Reveal New UFO Cases.

19.10.95 : Portsmouth News : UFO Spotters Look For Secrets Closer to Home.

21.10.95 : Sunday Telegraph : Prepare to Meet Thy Alien.

31.10.95 : The Independent : Sci-Fi Tv : Do We Have Lift-off?

31.10.95 : The Independent : Dear Steven Spielberg.

11.11.95 : Daily Express : Is This a UFO, Is It Batman, Or Is It Just a Half-eaten Farley's Rusk.

11.11.95 : Today : UFO? This One Takes The Biscuit..

TV:

19.10.95 : This Morning - Stanton Friedman :

Stanton Friedman was conducting a number of lecture across England and he came across very much in the interview. He gave the usual chat about his background etc and showed reports from the CIA etc that were blanked out and only 8 words were readable etc... There was a phone in and this proved fairly interesting with cases that relay need more looking into, but alas, they will never be.

22.10.95 : Tv Drama - Heartbeat :

I only saw a trailer for this and concerned a sighting of a UFO during a thunder storm that may of crash/landed on the Moors. It appears that UFOs are getting into all sorts of media, and I just wonder if there is a public rise in awareness concerning UFOs.

2.11.95 : Ann & Nick (see Main Article).

10.11.95 : Strange But True :

The Last in the present series and as the last series, went out with a bang. Michael Aspel (presenter) took a look at UFO's that have been encountered by pilots. Aircraft pilots and crews offered evidence towards the continuing debate over the existence of UFO's, including one airline pilot, who reveals how he was pressured not to report his unexplained sighting. This was a very interesting 30 minute program and well put together/presented. The program featured the famous Kiakoura sighting over New Zealand, that was explained away as light reflecting off cabbages (Seen at 13,000ft ? and some 20 miles out to sea ?) strange, I never knew light reflected off cabbages or it was lights from shrimp boats.

RADIO :

18.10.95 : Radio Solent with James Lush :

This item lasted in all over 30 minutes with 3 people being interviewed, all with varying points of view. Firstly, there was yours truly, and I related the UFO sighting that I had back in 1983'sh, and talked about how the governments are holding back information about UFO sightings/encounters. Then it was the turn of Martin Hempstead of the Wessex Sceptics (Based at Southampton University). Although his views were sceptical, in fact more than sceptical in the sense that he didn't believe in UFO sightings as they all had a natural explanation, but he did concede that there could be some life in some far off distance galaxy, but it isn't visiting us. The third person to take part was Prof. H.Rishbraugh of Southampton University who gave the point of view that there are a lot of things in our skies that people do not understand and that there could be and probably was some other life else where, but again it was not visiting us. It was a very balanced interview and as far as I am concerned went well for all concerned.

19.10.95 : Talk Radio UK with James Whale :

Stanton Friedman followed up his earlier interview on This Morning with an appearance on the James Whale show and the interview plus phone-in lasted for a good hour. Stanton was in this country on a grand tour giving lectures up and down the country. I must admit, although I enjoy listening to Stanton, he seems never to have many new ideas, thoughts etc and has become a bit stale due to this. But give him his due, he came over very well and of course the Roswell fiasco was talked about and a number of telephone calls brought the along with sighting/experiences. James Whale treated the subject/interview very well, as he has had a UFO experience himself and he has had a number of UFO people on his television program over the past few years.

MAGAZINE REVIEWS.

1. Annals2 : No 26, Oct/Dec 1995 :

As ever, this edition is packed with UFO news and is well worth considering adding to any ones collection. The front cover sports the photograph of another dead alien (No not Roswell again !), but the Japanese Alien Creature (The what I hear you say !). It shows one of a series published recently in Japan (Yet the features look more Japanese Chinese than Alien to me !). The Roswell (Oh no, here we go again) footage gets a pasting and there are two pages of world wide UFO sightings and reports. Also an item about a UFO in Peru that lit up a cross and an article that looks at strange images taken from the Lunar Orbiter 3, Feb 1967. There is a crypto corner, with a look at mystery cats in Ireland, Somerset and Scarborough. There is a whole host of other material that I haven't got the room here to review. For more details, contact : Gerry Lovell, 4G Preston Manor, Wick Hollow, Glastonbury, Somerset. BA6 8JQ.

2. UFON UK : No 5 1995 :

A relatively new publication/exchange consisting of photocopies of reports from the local area (Yorkshire). The only thing that I found a little frustrating, was that there was no references to which papers/dates the articles appeared in the press. But saying that, there were a number of interesting articles that I hadn't seen. For more details, contact ; UFON UK, 88 Whincover Drive, Franley, Leeds. I2 5JT.

3. UFO Magazine (Quest International) : Nov/Dec 1995 :

As ever very glossy and packed with UFO related material and adverts. This edition has an interview with David M.Jacobs - 'The Hybrids are coming', a very interesting article entitled ' Secret Britain' concerning RAF Machrihanish, in Scotland, The second part monument to life and structures on the Moon/Mars, Daylight UFO photographed over Las Vegas, The Roswell Archive Film, The mystery of prehistoric Avebury, The Bolivian UFO incident and a lot more. Available from W.H.Smiths and other newsagent outlets.

4. Ohio UFO Notebook. No 8 & 10 1995 :

A new exchange group, based in Dublin, Ohio which produces a well presented and informative magazine. Issue No 8 concerns itself with UFO sightings at Hilliard, Ohio on 5.2.67, The Ohio UFO crash connection and other stories, New Mexico Cattle mutilation conference and the Moon - evidence of Ancient habitations and much more. In issue 10, there is an examination of the little green men of Wright-Patt, abduction 1933 - present, Ohio mini flap in 1957, Linda M.Howe speaks about animal mutilations (A very interesting article) and again much more. For more details, contact MORA (Mid Ohio Research Association Inc), Box 162, 5837 Karris Square Drive, Dublin, Ohio, 43817, USA.

5. Strange Daze : No 7 Oct 95 :

This appears to be a bit of a bumper issue (39 pages), with 14 pages of letters from Eric Morris (concerning his group BUFOSC), and letters from Jenny Randles, Ken Phillips, John Spencer and Gloria Dixon about a previous article and the plight of BUFORA. (I feel that John Spencer, chairman of Bufora was rather scathing in his right to reply, and like others, I feel if there is not a shake up in Bufora and drastic changes in the hierarchy, then Bufora will slowly slip into oblivion and their street ~~lured~~ (What little they have anyway), will be zilch !!!). There is a review of 'In Advance of the Landing,' shown on British Tv in August (Thought this went on a bit myself...Ed) and a report of a mutilated sheep near Edinburgh Airport. For more details, contact : Mr D.A.Newton, 9 Broderick Close, Kenton, Newcastle - Upon - Tyne. NE3 3SG. Tel : 0191 2714419.

6. Skysearch : No 1 Autumn 1995:

A welcomed arrival to a new UFO magazine from a relatively new group run by Larry Dean in Brighton, Sussex. The magazine is well put together and I wish the group ever success in the forthcoming years. In the inaugural edition, there is an article by abductee/researcher Maria Ward who looks at the reality of abductions and Gary Lanham explores UFOs : Alien or Ancestral. Larry Dean looks at recent UFO reports over Sussex and compiles a 4 page listing of recent sightings. All new groups/ magazines need our support, so why not drop Larry a line and subscribe to this very interesting magazine. Contact : Skysearch, Po Box 2507, Saltdean, Brighton, Sussex, Bn2 8NE.

7. DEGUFORUM : No 7, Oct 95 :

A German language publication, that has 12 pages that looks at the Roswell footage, takes a look at the psychic reality of UFOs and a whole lot more. For more details, contact : DEGUFO, Postfach 2831, 55516 Bad Kreuznach, Germany.

8. Spiline : No 8 Oct 1995:

A new A5 format, that contains recent reports from Havant and Portsmouth, Hampshire, The continuing story f the north American Circles and a triangular UFO seen over Leigh park, Havant, Portsmouth, Hampshire. For More details, contact Bob Schindler on Portsmouth (01705) 611437.

9. World UFO Journal : No 10 Winter 95 :

As ever, Edward Harris has produced a very interesting edition and in his editorial, I commented on his previous issue about 'Grabbing from other magazines and newsletters'. Well, we all do it, and I am just as guilty as the next man and I accept Edwards comments, and as he later goes on to say 'Bickering among ourselves will NOT solve the UFO question, Co-operation WILL !. Well said that man. This edition looks at an alien probe detected in the Solar system - radio echo's from space and The Roswell Alien - Questions and Answers, and much more. For more details, contact : Mr Edward Harris, 16 Newton Green, Great Dunmow, Essex, England. CM6 1DU.

TRANSCRIPT OF GOOD MORNING 2.11.95.

The following is a transcript of Good Morning (Anne & Nick) with Ray Santilli and Patrick Moore. I have included this, as I feel there are some of you that did not see the item and Patrick Moore rounded his interview of with a very aptly :

A = Anne N = Nick S = Ray Santilli P = Patrick Moore.

A : Do you Believe.

S : I don't know. I know the film is genuine. I don't know if its a human with a Chromosome disorder. I don't know if it is an Alien, not even the cameraman knows.

A : How do you know the films genuine ?

S : I know the film is genuine, because we've conducted a series of tests on the film itself. I believe that the cameraman is genuine.

A : Its the cameraman that came to you and volunteered to give you this footage and that he was working for the government at the time wasn't he ?

S : He was working for the military yes.

A : He was asked to take footage of this autopsy because it was an historical event ?

S : Yes, this was 47 years ago. He was sent there initially to film what he believed was the crash of a Russian spy plane. Once he arrived, he realised that it wasn't. He doesn't still know to this day what the creatures were or what the vehicle was, he was just there to do a job.

A : So we have this footage inside the mortuary, have medical people seen this footage ?

S : Absolutely.

A : What have they said about it ?

S : Millions of dollars world wide have been spent investigating the film. Every medical expert that has seen the film believes that the creature is flesh and blood and so far, we are now 2 months after the release of the film. The film still maintains its integrity and more positive than negative.

N : And been big box office on Tv in the States .

S : World wide success in the terms of broadcast, yes.

N : How did the alien get here, in your opinion ?

S : I haven't got a clue < Smile >, I have very little knowledge of the subject (But he knows a man that does ... Editors note) of UFO's.

A : It all boils down to this incident which was known as the Roswell incident, which is where it is thought something crash-landed on earth.

S : Absolutely.

A : were it a meteorite or what ever & various people were sent out to investigate and from that time onwards everything was clouded in mystery. If it really did happen, then it was hushed up, the witnesses hushed up, but something happened. Your cameraman was there, he filmed that footage. If its a hoax, its a very elaborate one isn't it ?

S : Well, when you have the person that made Jurassic Park, saying that they wouldn't be able to do it, you have to wonder who would be able to do it and how many millions of dollars would it take to make a film like that. The only answer is that the film has to be genuine.

N : Why did he give it to you of all people ?

S : Its a very long story. but I was working on of all things a music documentary 3 years ago and this particular camera man during the 1950's was working for Universal News as a freelance cameraman and to cut a very long story short, I bought music footage from him for the documentary we were doing at the time and at the end of that, he just as a passing comment said would you be interested and started talking about what he did prior to 52, when he was in the military and it was a straight forward cash transaction.

A : But why didn't he give it to someone else ?

N : A top UFO specialist in the United States ?

S : Firstly, I don't think that he has a love for the subject of UFOs. He's middle American, he's very religious. I was there, I'm English, and its very easy for him to talk to a foreigner about parting with a piece of film, without any real comeback as far as he was concerned. so I think I was just at the right place, at the right time.

N : what was your reaction when you first saw this film ?

S : Interest, confusion, but obviously there was no way I could let it go, I've got to get involved.

A : Why isn't there any sound on the film ?

S : I think sound was recorded, but not on the film. There is a micro-phone there in the footage itself, so you can see that sound was recorded.

A : It is frustrating looking at it, because the camera never dwells on anything long enough to get a really good look.

S : He's been criticised for that, but it was standard technique at the time. You know if a surgeon moves in front of a cameraman and he's on a tripod then the shot will be blocked, so he moves around. There has been many people who have talked about the camera technique, that was standard for that time.

N : It's amazing he was aloud to keep the stuff, especially if there was a cover-up.

S : It was a real mix-up. Its another ridiculous story. he shot hundreds of reels of film. he kept aside some reels for processing, because there was problems with the film during the shot, and he sent the first batch off to Washington. he tried to get the second batch picked up by Washington and they never did.

But at the time, the Army and Air Force had just split, they were one unit, the Army-Airforce and they split just afterwards and there was a great deal of confusion internally and he just kept the film over the past 47 years.

A : What do you believe ?

S : In terms of what ?

A : Is it an alien do you think ?

S : I don't know. All I know is that the film is genuine & the creature is flesh and blood, but I just don't know what it is, nor does the cameraman.

A : I find it so hard to believe that if there are aliens, why should they look almost like us ?

S : That's a good point.

A : If you believe Darwin, we evolved by accident.

N : Did you say he doesn't know, but he was there.

S : But he doesn't know where the creature comes from, he doesn't know what it is.

N : But he filmed where it landed ?

S : Absolutely.

N : And where the crash was ?

S : But there is also a very good argument to say that it could have been the Americans experimenting at the time. I could be a human with a Chromosome disorder, which is not unusual. So the Americans were certainly experimenting at the time. Could it have been an American experiment or could it have been a flying saucer with ET's. We just don't know.

A : How much did you pay for it ?

S : I didn't pay anything for it. The money that eventually we got to pay for the film, came from Germany. But it was a significant amount, that was required to acquire the film.

N : Will we ever know who the cameraman is.

S : Possibly, but not right now.

N : Right.

A : Have you made loads of money from the film ?

S : No, not at all (I have heard the sum \$4 million mentioned somewhere Editors note).

Patrick Moore was interviewed on the same program about 2 new video's he has just brought out about the Apollo missions, but here is what he had to say about Flying Saucers and the film :

N : What about other beings anywhere else in the universe.

P : I'm quite sure there's plenty of it.

N : Are you ?

P : The point is, our sun is one of a hundred thousand million stars in our solar galaxy alone and we know of a thousand million galaxies, so the total number of stars we know to exist is staggeringly great. Now if you were to believe that our own, perfectly ordinary, unimportant sun is the only one to be attended by a people planet, but saying that is one thing, proving it's quite another. And these things are going to get many light years away and of course all the Flying Saucer stories are absolute rubbish.

A : You actually think so. You don't think there's any aliens that have visited us.

P : No.

N : But you actually saw what you thought was a Flying Saucer ?

P : < Laughing > Long long ago, I was in my observatory mapping the Moon, in my Moon mapping days. suddenly a whole cloud of Flying Saucers were coming towards me. The Martians have arrived at last, only the following day did I finally work out what it was. It was of course pollen coming down the moon beams landing on the telescope < More Laughter >

P : This Roswell film, may I quote the Duke of York **'If you believe that, you will believe anything'**.

A : You don't think so, you think it's a hoax ?

P : I would of thought they could of made a better model than that, and someone made a lot of money.

A : Well yes, that makes me wonder.

P : I will sum up the entire thing in one word.

A : Yeah.

P : **' BUNK'.**

Well what more can one say than that and I think that Patrick Moore chose the right word myself an I just wonder how much longer we are going to have to suffer the Roswell footage. I must admit, this will be the last time that I mention it, as I think the that I have mentioned quite a bit about it over the past months and I will confine it to **'biggest hoax of 1995'** box. Obviously, if and when it is proven a hoax, I will put pen to paper, but until then, **'Roswell, Rest in Peace'.....**

**HAPPY
CHRISTMAS
AND
A
GOOD
NEW
YEAR
TO
ALL
MY
READERS.**
